Limestone Cobbles – Random Sizes

Citadel Stone

Product Specification Sheet | Generated November 11, 2026

Product Information

Product Name	Limestone Cobbles – Random Sizes
Category	Limestone Slabs, Tiles

Technical Specifications

Size	Custom dimensions and thicknesses

Description

Natural limestone cobbles supplied in blended random sizes — squares and rectangles that lock together into classic, rustic paving for driveways, garden paths, courtyards, and borders. Quarry-direct from the Middle East with the wear resistance of dense limestone underfoot, cut to order and delivered by the pallet or container across the US. Request a sample to judge the tone and texture in hand before ordering.
