Ocean Reef Leathered Shell Stone Pavers

Citadel Stone

Product Specification Sheet | Generated November 10, 2026

Product Information

Product Name	Ocean Reef Leathered Shell Stone

Category	Limestone Slabs, Tiles
Finish	Leathered

Description

Citadel Stone’s Ocean Reef Leathered Shell Stone Pavers bring the leathered surface specification of our signature coral-born fossiliferous limestone into the natural-stone hardscape and interior surface market. The leathered finish is a refined textured surface treatment that combines the tactile softness and slip resistance of textured stone with the visual refinement of a controlled, even surface character — appropriate for both indoor and outdoor installations across the warm-climate USA mar...
