Technical Specifications

Size	24″ × 12″

Description

Ocean Reef Shellstone Wall 24″ × 12″ brings the most architecturally distinctive natural stone in the Citadel Stone catalogue into a wall-format specification designed for the United States warm-climate market and equivalent international settings. The 24-inch by 12-inch rectangular face at 3/4-inch thickness is the format that designers and architects specify when they want fossiliferous limestone character on a vertical surface — full-height residential facades in Florida and Gulf Coast settin...
